

Priority Home Monitor

Tagline: Care That Watches Over You - Every Day

Primary CTA: Refer a Patient

Secondary CTA: Request a Provider Consultation

What Is a Home Monitoring Program?

Home monitoring tracks your health daily while you stay at home. Clinical teams review data to detect risks early and act before problems escalate.

Key Benefits:

- Daily health visibility beyond clinic visits
- Early risk detection through trend analysis
- Faster clinical response
- Continuous care without disrupting daily life

Our Programs (Rayan help)

A connected ecosystem of condition-specific programs. Each program operates independently while integrating into a single care platform.

Programs Include:

- **Wellness Program** (Sleep, Mental Health, Nutrition, Weight Management)
- **Sleep Programs** (Pediatric, Adult, ENT)
- **Heart Failure Management**
- **Respiratory Care** (COPD)
- **Safety & Monitoring** (Real-time Fall Detection)

Wellness Programs (Recommended Order)

1. Mental Health

- Awareness and monitoring of mood and stress
- Care coordination and check-ins

Primary CTA: Explore Mental Wellness

Secondary CTA: Refer a Patient

2. Sleep Health

- Sleep disorders and insomnia management

- OSA programs for adults and children
Primary CTA: Explore Sleep Health
Secondary CTA: Request a Provider Consultation

3. Nutrition & Weight Management

- Nutrition counseling
- Personalized weight tracking and diet monitoring
- Preparation of meals
Primary CTA: View Nutrition & Weight Programs
Secondary CTA: Refer a Patient

4. Heart Health

- Heart failure monitoring and symptom tracking
- More points like this
Primary CTA: Explore Heart Health
Secondary CTA: Request a Platform Demo

5. Respiratory Care

- COPD monitoring and therapy adherence
Primary CTA: Explore Respiratory Care
Secondary CTA: Refer a Patient

6. Safety & Monitoring

- Real-time fall detection for independent living
Primary CTA: Explore Safety Programs
Secondary CTA: Request a Platform Demo

Condition & Program Subpages

COPD (/programs/copd)

Focus: Respiratory stability and flare-up prevention

- Oxygen saturation and breathing trend monitoring
- Early detection of exacerbation patterns
- Medication and therapy adherence support

- Reduced hospitalizations
Primary CTA: Start COPD Monitoring
Secondary CTA: Refer a Patient

Hypertension (/programs/hypertension)

Focus: Blood pressure control and cardiovascular risk reduction

- Daily blood pressure trend analysis
- Threshold-based provider alerts
- Lifestyle and medication adherence support
- Long-term risk mitigation
Primary CTA: Enroll in Hypertension Care
Secondary CTA: Partner With Us

Diabetes (/programs/ccm/diabetes)

Focus: Glycemic control and complication prevention

- Glucose trend monitoring
- Behavioral and nutritional insights
- Early risk pattern identification
- Provider-guided care adjustments
Primary CTA: Explore Diabetes Care
Secondary CTA: Request a Provider Consultation

Heart Failure (/programs/ccm/heart-failure)

Focus: Fluid balance and cardiac stability

- Weight and symptom trend monitoring
- Early detection of decompensation
- Provider alerts for intervention
- Reduced readmissions
Primary CTA: Start Heart Failure Program
Secondary CTA: Refer a Patient

Obstructive Sleep Apnea (OSA) (/programs/osa)

Precision Sleep Monitoring Beyond Compliance

- Sleep quality and respiratory event tracking
- PAP compliance and performance data

- Clinician review and intervention
 - Measurable symptom improvement
- Primary CTA: Explore OSA Program**
Secondary CTA: Request a Platform Demo
-

Sleep Programs (/programs/sleep)

Pediatric Sleep Monitoring (/programs/sleep/pediatric)

- Early detection and family reassurance
 - Non-invasive sleep monitoring
 - Parent-facing alerts
 - Coordination with pediatric providers
- Primary CTA: Explore Pediatric Sleep**
Secondary CTA: Refer a Patient

Adult Sleep Monitoring (/programs/sleep/adult)

- Long-term sleep health and risk reduction
 - Sleep pattern analysis
 - PAP adherence optimization
 - Clinical review for fatigue and cardiovascular risks
- Primary CTA: Start Adult Sleep Program**
Secondary CTA: Request a Provider Consultation

ENT Sleep Program (/programs/sleep/ent)

- Advanced airway management
 - Pre- and post-surgical sleep monitoring
 - CPAP and implant therapy tracking
 - Provider-aligned outcome evaluation
- Primary CTA: Consult ENT Sleep Program**
Secondary CTA: Partner With Us
-
-

Wellness Program (/programs/wellness)

Weight Monitoring & Management

- Continuous weight trend tracking
 - Health risk correlation
 - Clinician-reviewed alerts
- Primary CTA: Start Weight Monitoring**

Mental Health Awareness

- Mood and stress indicators
 - Awareness tools and check-ins
 - Care coordination pathways
- Primary CTA: Explore Mental Wellness**
Secondary CTA: Refer a Patient

Diet & Nutrition

- Nutrition tracking and weight support
 - Condition-aware dietary insights
- Primary CTA: View Nutrition Support**
Secondary CTA: Request a Platform Demo

Prepared Meal Program (/programs/nutrician/diet/meals)

Collaboration: CookUnity

- Access to medically aligned prepared meals
 - Supports nutrition and weight programs
- Primary CTA: Visit CookUnity (Opens New Window)**
Secondary CTA: Explore Programs
-

Fall Detection (/programs/fall-detection)

Real-Time Fall Detection for Older Adults

Why It Matters:

- 1 in 3 adults aged 65+ experience a fall each year
- 1 in 10 falls result in serious injury
- 3 million ER visits and 1 million hospitalizations annually from falls

- Falls are the leading cause of traumatic brain injuries
- 83% of hip fracture deaths & 88% of related hospital visits are caused by falls

Primary CTA: Deploy Fall Detection

Secondary CTA: Request a Platform Demo

Features:

- **24/7 Monitoring:** Passive, wearable-free
- **Immediate Alerts:** Instant notifications
- **Wireless Intelligent Sensing:** No cameras/audio
- **Activity & Presence Tracking:** Movement, sleep, behavior
- **AI Risk Insights:** Identify rising fall risk early
- **Low False Positives:** <1 false alert/month
